

# CALL FOR PAPERS

**ICCPSS 2022**  
**Dec 13-14, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPSS 2022 : International Conference on Cyber and Physical Systems Security is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cyber and Physical Systems Security. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Adaptive attack mitigation
- Authentication and access control
- Availability, recovery and auditing
- Data security and privacy
- Embedded systems security
- EV charging system security
- Intrusion detection
- Key management
- Legacy CPS system protection

- Lightweight crypto and security
- SCADA security
- Security of industrial control systems
- Smart grid security
- Threat modeling
- Urban transportation system security
- Vulnerability analysis
- Wireless sensor network security
