

CALL FOR PAPERS

ICDSS 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDSS 2022 : International Conference on Design of Special Structures is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Design of Special Structures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

The structural design of tall and special buildings
Conceptual design and analysis of long span structures
Wind load analysis
Design RC water tanks
Design retaining wall
Design of silos
Tensile membrane structures

Cable-net and tensegrity structures
Lightweight structures
Sculptures and artwork
Movable structures
Temporary structures
Pedestrian bridges
