

CALL FOR PAPERS

ICEISE 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEISE 2022 : International Conference on Enterprise Information Systems and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Enterprise Information Systems and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Databases and Information Systems

Integration

Coupling and Integrating

Heterogeneous Data Sources

Query Languages and Query

Processing

Performance Evaluation and

Benchmarking

Large Scale Databases

Non-relational Databases

Mobile Databases

Object-Oriented Database Systems

Legacy Systems

Organisational Issues on Systems

Integration

Distributed Database Systems

Enterprise Resource Planning

Middleware Integration

Data Mining

Data Warehouses and OLAP

Artificial Intelligence and

Decision Support Systems

Evolutionary Programming

Natural Language Interfaces and
Systems

Multi-Agent Systems

Scheduling and Planning

Operational Research

Problem Solving

Game Theory Applications

Group Decision Support Systems

Intelligent Transportation System
