

# CALL FOR PAPERS

**ICESA 2022**  
**Dec 13-14, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESA 2022 : International Conference on Environmentally Sensitive Architecture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmentally Sensitive Architecture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmentally sensitive  
architecture and design  
Environmentally sensitive design in  
practice  
Ecological architecture and natural  
building  
Environmentally friendly  
structures  
Environmentally sensitive  
development and growth  
Sustainable architectural  
engineering  
Efficiency and moderation of  
materials, energy and development  
Energy and ecological conservation  
Sustainable energy use

Heating, ventilation and cooling  
system efficiency  
Renewable energy generation  
Sustainable building materials  
Recycled materials used in building  
construction  
Materials sustainability standards  
Sustainable building consulting  
Sustainable urbanism and  
architecture  
Low-energy house and zero-energy  
building
