

CALL FOR PAPERS

ICFTC 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFTC 2022 : International Conference on Fault-Tolerant Computers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fault-Tolerant Computers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Fault-tolerant computer system
- Fault-tolerant computing
- Fault-tolerant systems and design
- Hardware fault-tolerance
- Software fault-tolerance
- Logic faults in digital systems
- Design of fault tolerant computers
- Ultradependable real-time computers

- High-availability computers
- Fault tolerance, diagnosis, and modeling
- Fault tolerance verification and validation
- Validation of fault-tolerance
- Fault tolerance and research
- Failure-oblivious computing
- Recovery shepherding
