

CALL FOR PAPERS

ICGPSS 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGPSS 2022 : International Conference on GPS Surveying is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of GPS Surveying. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Satellite surveying
GPS surveying
GPS surveying, mapping and data collection
GPS/GNSS developments
GPS observation techniques

Characteristics of satellite systems
Satellite technology for surveying
Real-time kinematics relative positioning
Positioning, lattice adjustment, and antennas
GPS surveying for engineering applications
