

# CALL FOR PAPERS

**ICHVVI 2022**  
**Dec 13-14, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHVVI 2022 : International Conference on Human Vaccines, Vaccination and Immunization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Human Vaccines, Vaccination and Immunization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- |  |  |
|--|--|
| Vaccines against infectious diseases   | Toxoid vaccines                          |
| Cancer vaccines                        | Geriatric immunization                   |
| Hepatitis vaccines                     | Immune mediated diseases-vaccines        |
| Bacterial vaccines                     | Innovative development of vaccines       |
| DNA vaccines                           | Mucosal vaccines                         |
| Combination vaccines                   | Child hood and maternal vaccines         |
| Edible vaccines                        | Vaccines industry                        |
| Viral vaccines                         | Vaccines for unconventional diseases     |
| Vaccines against vector borne diseases | Developing conjugate vaccines            |
| Travel vaccines                        | Plant derived vaccines                   |
| Mosquito-borne diseases-vaccines       | Vaccines for pregnant women and neonates |
| Protein based vaccines                 |  |
