

# CALL FOR PAPERS

**ICMABMS 2022**  
**Dec 13-14, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMABMS 2022 : International Conference on Modeling of Agent-Based Manufacturing Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Modeling of Agent-Based Manufacturing Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agent-based manufacturing systems  
Agent-based systems for intelligent manufacturing  
Artificial intelligence in manufacturing  
Multi-agent systems and technologies  
Agent-based manufacturing enterprise infrastructure  
Integration of material supply and management

Dynamic scheduling and rescheduling  
Modeling of agent-based manufacturing systems  
Agent technologies  
Agent level, interaction and organization  
Agent-based simulation  
Coordination and control in distributed and agent-based manufacturing systems
