

# CALL FOR PAPERS

**ICNMIA 2022**  
**Dec 13-14, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNMIA 2022 : International Conference on Nanotechnology for Measurement and Instrumentation Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanotechnology for Measurement and Instrumentation Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanomaterials and Nanotechnology  
Power Electronics and Renewable  
Energy  
Machines, Robotics and Control  
Sensor Networks, Internet of Things  
and Smart Grid Technologies

Data Science, Artificial  
Intelligence and Intelligent  
Systems  
Optoelectronics and Communications  
Mathematical Modeling, Optimization  
and Simulation  
Biomedical Engineering, Bio-Signals  
and Bio-Image Informatics
