

CALL FOR PAPERS

ICRDT 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRDT 2022 : International Conference on Radiation Detection Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Radiation Detection Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Radiation detection and measurement

Radiation detection devices and systems

Types of radiation detectors

Radiation interaction and sources

Detector materials

Detector development and characterization

Radiation imaging and advanced concepts

Radionuclide detection

Environmental assessment and remediation

Treaty verification

Detector materials development

Realistic computer modeling

Proliferation detection and prevention

Detecting ionizing and non-ionizing radiation
