

# CALL FOR PAPERS

**ICSPM 2022**  
**Dec 13-14, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSPM 2022 : International Conference on Software Process Models is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Process Models. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Software process models
- Planning with models
- Possible approaches
- Project constraints
- Computing resources
- Time constraint
- Specialist technical staff
- Project planning
- The waterfall model
- Evolutionary development types
- Exploratory development
- Throwaway prototyping
- Code-and-fix

- Spiral model
- Rapid prototyping
- Rational unified process
- Agile software processes
- Agile principles
- Agile methods and extreme programming
- Development speed (time to market)
- Product quality
- Project visibility
- Administrative overhead
- Risk exposure
- Customer relations
- User requirements
