

CALL FOR PAPERS

ICTSMC 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTSMC 2022 : International Conference on Transmission Structures and Maintenance Considerations is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Transmission Structures and Maintenance Considerations. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Transmission structures
Structure configuration and material
Maintenance considerations
Loads on transmission structures
Design of steel lattice tower
Transmission poles general

Stress analysis
Transmission tower foundations
Geotechnical parameters
Design and construction
Safety for foundation design
Foundation testing
