CALL FOR PAPERS

ICWTIA 2022
Dec 02-03, 2022
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWTIA 2022 : International Conference on Web Technologies for Industrial Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Web Technologies for Industrial Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Web technologies in industrial systems

Advantages of using web technologies in industrial systems

Industry standard web technologies

Industrial applications of semantic web

Semantic web computing in industry

Semantic web technologies and applications for enterprises

Industrial website design and development
