

CALL FOR PAPERS

ICBBEE 2022
Dec 27-28, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBBEE 2022 : International Conference on Bioengineering, Biotechnology, Energy and Environment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioengineering, Biotechnology, Energy and Environment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Applied Ecology and Environmental Research
Atmospheric physics and chemistry
Bio-machine systems
Biochemical Engineering
Biofuels
Biological natural resource engineering
Biomaterials
Bioprocess and Biosystems
Biotechnology
Biotechnology applied to production of new and better quality food
Biotechnology for Livestock, Pests and Aquaculture
Carbon capture and storage
Chemical, Environmental, and Process Engineering

Clean energy systems and technology
Climate and climatic changes
Cutting Edge Science for Future
Animal Agriculture
Delivery of the final product
Ecological Engineering
Emerging public concerns with animal agriculture
Emerging technologies in Agriculture and Livestock
Energy in agriculture
Environmental constraints to animal agriculture
Environmental dynamics
Environmental engineering and management
Environmental engineering and sustainable development
Environmental Science and Technology
