

CALL FOR PAPERS

ICRFISIT 2022
Dec 27-28, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRFISIT 2022 : International Conference on Radio-Frequency Identification Systems and Intelligent Tags is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Radio-Frequency Identification Systems and Intelligent Tags. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

RFID applications
Internet of things
Industrial internet
Green RFID applications
RFID data management
Supply chain management
Healthcare services

Inventory management
Uncertainty
Middleware for internet of things
Intelligent tags
Urban computing
Context aware computing
Smart homes and smart cities
