

CALL FOR PAPERS

ICAAPN 2023
Jan 25-26, 2023
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAAPN 2023 : International Conference on Advanced Applications of Polymer Nanocomposites is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Applications of Polymer Nanocomposites. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

The applicability of polymer nanocomposites in the fields of
Industrial materials
Smart materials including smart sensors and actuators
Membranes (gas/gas, gas/liquid, and liquid/liquid separations)
Gaskets
Catalysts
Desalination (antiscalants)
Water treatment materials
Biocompatible/degradable/renewable materials

Packaging/films
Drug delivery
Energy generation
Energy storage
Construction/building industry
Military applications
Biomedical industry
Agricultural/food industry
