

# CALL FOR PAPERS

**ICEQTM 2023**  
**Jan 11-12, 2023**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEQTM 2023 : International Conference on Educational Quality and Teaching Methodologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Educational Quality and Teaching Methodologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ethical issues in education	constructing and circulating knowledge
Education in a multicultural society	Teachers and staff training and education
Learning by means of various media	Pedagogic innovations
Enhancing learning and the undergraduate experience	Educational environment
Distance education and eLearning	Web classroom applications
Global and sustainable developments for education	International education and Exchange programs
New learning and teaching models	Science and technology Education
Innovative pedagogy of subject-matter teaching and learning skills	Educational foundations
