

CALL FOR PAPERS

ICFMMA 2023
Jan 21-22, 2023
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMMA 2023 : International Conference on Functional Magnetic Materials and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Functional Magnetic Materials and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Functional magnetic materials
Novel functional magnetic materials
and applications
Magnetism and magnetic materials
Magnetic materials with phase
transition-driven functionality
Magnetocaloric materials
Nanocrystalline magnetic materials
and applications
Hard magnetic materials
Magnetic shape memory alloys
Magnetic oxides

Soft magnetic wires for sensor
applications
Advanced magnetic materials
Multifunctional composites
Functional magnetic and
magneto-transport properties
Magnetic sensors, microelectronics,
and security
Magnetic softness
Magnetic field sensitivity
Large magnetocaloric effect
