

# CALL FOR PAPERS

**ICWSUD 2023**  
**Jan 18-19, 2023**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWSUD 2023 : International Conference on Water Sensitive Urban Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Water Sensitive Urban Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Active Transportation	Economic Value of Green Infrastructure
Architectural and Urban Design	Ecosystem Management
Architecture, Building and Planning	Environment and Planning
Architecture and Landscape Architecture	From Local-specific to Global-regional Interventions
Biodiversity: Wildlife Habitat and Linkage	Global Urban Design and Planning
Cities, Green Infrastructure and Health	Gray and Green Infrastructure for Increased Urban Resiliency
Contemporary Urban Environment	Green Infrastructure
Contemporary Urban Transformations	Green Infrastructure and Community Design
Creative City-building Initiatives	Green Infrastructure and Issues in Managing Urban Stormwater
Designing Green and Blue Infrastructure to Support Healthy Urban Living	Green Infrastructure and Low Impact Development
Designing Operative Landscape Structures for the Built Environment	Green Infrastructure and Renewable Energy
Designing the Future of Urban Living	Green Infrastructure and Sustainable Drainage Systems
Ecological Design of Urban Landscapes	Green Infrastructure and Sustainable Site Design
