

# CALL FOR PAPERS

**ICMA 2023**  
**Feb 11-12, 2023**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMA 2023 : International Conference on Microbes in Animals is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microbes in Animals. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

African swine fever	MRSA
Rabies	Parasitic roundworm diseases
Diseases causing microbes in animals	Mortality in historical populations
Parasitic diseases in animals	Tuberculosis
Clostridial diseases	Malarial transmission
Transmission of infections by animals	Swine pathogenic bacteria
Bacterial infections	Evolutionary biology
Viral infections	Vaccination
Parasitic infections	Seasonal vaccines
Fungal infections	Inflammatory drug development
