**Feb 11-12, 2023**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRVVT 2023 : International Conference on Robot Vision and Visual Tracking is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Robot Vision and Visual Tracking. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Vision-Based Navigation  
Robot Visual Tracking  
Image-Guided Robot Interventions  
Range Imaging  
Vision to Motion  
Vision for Haptics  
Vision for Aerial Robotics  
Vision for Underwater Robotics

Software Tools for Robot Vision  
Visual Servoing and Servo Control  
Learning from Sensor/Visual Data  
Real-time Sensing and Control  
Active Sensing  
Sensor Fusion and Sensor Networks  
Multi-Robot Systems with Vision  
Sensors
