

CALL FOR PAPERS

ICAINN 2023
Feb 18-19, 2023
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAINN 2023 : International Conference on Artificial Intelligence and Neural Networks is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Artificial Intelligence and Neural Networks. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Artificial Intelligence and Neural Networks
Agent-based systems
Artificial Intelligence in Modelling and Simulation
Artificial Intelligence in Scheduling and Optimization
Artificial life
Bioinformatics
Brain-machine interfaces
Cognitive models
Collective intelligence
Computational biology
Computational neuroscience
Computer Vision
Concurrent and Parallel Processing

Data mining
Distributed Intelligent Processing
Embodied robotics
Evolutionary Design
Evolutionary neural systems
Evolutionary Scheduling and Optimisation
Expert Systems
Fuzzy Computing with Words
Fuzzy Control
Fuzzy Logic
Fuzzy Optimisation
Hardware Implementations
Hybrid systems
