

CALL FOR PAPERS

ICWETER 2023
Feb 15-16, 2023
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWETER 2023 : International Conference on Waste-to-Energy Technology and Energy Recovery is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Waste-to-Energy Technology and Energy Recovery. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Waste-to-energy technologies
Incineration methods
Global developments
Carbon dioxide emissions
Determination of the biomass fraction
Waste-to-energy plants
Energy recovery
Waste-to-energy applications
Environment improvement
Thermal technologies
Gasification

Thermal depolymerization
Pyrolysis
Plasma arc gasification or plasma gasification process
Non-thermal technologies
Anaerobic digestion
Fermentation production
Mechanical biological treatment
Municipal solid waste, sustainability and technology
Landfill gas process flows and methane emissions
Government policies and regulations
Waste-to-energy technologies and project development
