

CALL FOR PAPERS

ICEWMH 2023
Feb 18-19, 2023
Jeddah, Saudi Arabia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEWMH 2023 : International Conference on Electronic Waste Management and Handling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electronic Waste Management and Handling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electronic waste management	Electronic waste inventory
Human toxicity of hazardous substances in e-waste	management
Environmental impacts of e-waste from disposal processes	Electronic waste production-process modification
E-waste recycling technologies	Electronic waste volume reduction
E-waste management and disposal strategy	Electronic waste recovery and reuse
E-waste management policies, procedures and strategies	Sustainable electronic product design
Material flow analysis of electronic wastes	Life cycle assessment
Effects on the environment and human health	Material flow analysis
Sustainable management of electronics	Multi criteria analysis
Sustainable e-waste management	Extended producer responsibility
