

# CALL FOR PAPERS

**ICAVI 2023**  
**Feb 25-26, 2023**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAVI 2023 : International Conference on Animal Virology and Immunology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Animal Virology and Immunology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Animal virology  
Vaccines and antivirals  
Applied veterinary virology  
Biotechnological applications for veterinary virology  
Diagnosis, prevention and treatment of animal viral diseases  
Viruses and tumours  
Viral pathogenesis  
Epidemiology of viral diseases  
Deadliest and infectious viruses  
Clinical virology and immunology

Molecular virology  
Retrovirology: research and treatment  
Recent advances and challenges in veterinary virology  
Emerging and zoonotic viruses  
Veterinary epidemiology  
Evolution and genomics  
Nanobiotechnology  
Risk assessment and modeling  
Viral immunology
