

CALL FOR PAPERS

ICOOC 2023
Mar 08-09, 2023
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOOC 2023 : International Conference on Oceanography and Ocean Currents is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Oceanography and Ocean Currents. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|----------------------|---|
| Oceanography | Climatology |
| Marine management | Marine biodiversity |
| History | Marine mammals |
| Modern oceanography | Chemical composition of the ocean water |
| Ocean acidification | The geology associated with the ocean |
| Ocean currents | The physical movements of the ocean water |
| Ocean heat content | Waves and currents and tides |
| Weather | Effects of climate change, overpopulation and overfishing |
| Sea life | Marine ecosystems and their inhabitants |
| Coastal processes | Ocean's floor |
| Atmospheric sciences | Volcanic activity and its relation to the deep oceanic trenches |
| Coastal sciences | Acoustical oceanography |
| Meteorology | Biological oceanography |
