

CALL FOR PAPERS

ICRBSRE 2023
Mar 04-05, 2023
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRBSRE 2023 : International Conference on Radiant Barrier Systems, Reflectivity and Emissivity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Radiant Barrier Systems, Reflectivity and Emissivity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Radiant barrier systems in
buildings
Radiant energy transfer
Designing and installing radiant
barrier systems
Effective thermal resistance of
building envelopes
Energy savings
Shingle temperature

Attic dust accumulation
Sunlight and heat
Roof systems
Wall systems
Climate
Reflectivity and emissivity
