

CALL FOR PAPERS

ICVSE 2023
Mar 15-16, 2023
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVSE 2023 : International Conference on Visualization in Software Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Visualization in Software Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software engineering for self-adaptive systems
Modeling dimensions of self-adaptive software systems
Engineering self-adaptive systems
Architecture-based self-adaptation
Policy-based architectural adaptation management
Goal-driven architectural adaptation

Model-centric, context-aware software adaptation
Self-adaptive applications in ubiquitous and service-oriented environments
Self-adaptation in ubiquitous and service-oriented environments
Component-based adaptive systems
Model-driven assessment
Self-adaptive healing
