

CALL FOR PAPERS

ICAEIT 2023
Mar 25-26, 2023
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEIT 2023 : International Conference on Advanced Electronics and Infocomm Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Electronics and Infocomm Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Infocomm technology	Information security in
Fiber technologies	infocommunication systems
Photonic structures and sensor	Applications of fractal and chaos
technologies	in infocommunication technologies
Biophotonics	Information and communication
Optical and wireless network	technology
technologies	Telecommunication and information
Space communications, navigation	processing
and tracking	Electronic communications
Infocommunication technologies and	Internet technology
networks	Integrated information processing
Communication networks and systems	and content management
administration	Classical telecommunications and
Telecommunication systems theory	information technology
and applications	Media technologies and media
Control, adaptation,	communications
self-organization in	Telecommunications, digital
infocommunication systems	broadcasting and information
Software-defined networking	technology
Constructing, design and planning	User computer systems and devices
methods for infocommunication	Office network and devices
systems	Network server and services
Mobile infocommunication systems	
and signal processing
