

CALL FOR PAPERS

ICBEPMS 2023
Mar 25-26, 2023
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBEPMS 2023 : International Conference on Basic and Experimental Probability in Mathematical Sciences is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Basic and Experimental Probability in Mathematical Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mathematical sciences

Probability

Basic probability

Experimental probability

Inverse probability

Probability theory

Conditional probability

Inverse probability

Discrete probability

Summary of probabilities

Axiomatic mathematical

formalization in probability

theory

Independent events

Mutually exclusive events

Not mutually exclusive events

Inductive reasoning

Analysis

Complex analysis

Homotopy analysis

Mathematical methods

Computational methods

Scientific observations

Computational science
