

CALL FOR PAPERS

ICCRAC 2023
Mar 25-26, 2023
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCRAC 2023 : International Conference on Cultural Robots and Artificial Culture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cultural Robots and Artificial Culture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cultural robotics
Robotics and cultural heritage
Robots in culture
The cultural influence of robots
Cultural acceptance of robots
Robot-generated culture
Human-robot interaction
Cultural and artistic robotic systems
Robotic partner technologies

Robotic improvisation and collaboration
Cultural acceptance of robotic agents
Impact of culture on robotic design and vice versa
Cognitive models for cultural robots
Artificial intelligence focused on creativity
HRI studies on cultural robots
Robots and entertainment
Exploratory research into defining cultural robotics
