

CALL FOR PAPERS

ICFIETM 2023
Mar 25-26, 2023
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFIETM 2023 : International Conference on Fredholm Integral Equations and Taylor Method is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fredholm Integral Equations and Taylor Method. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fredholm integral equation
Equation of the first kind
Equation of the second kind
General theory
Applications
Numerical applications
Numerical methods for solving
Fredholm integral equations

Numerical solution of linear and
nonlinear Fredholm integral
equations
Numerical tools for analysis and
solution of Fredholm integral
equations of the first kind
The numerical solution of Fredholm
integral equations of the second
kind
The mean value method
The Bernstein method
The least square method
The Taylor method
