

CALL FOR PAPERS

ICHCCTI 2023
Mar 25-26, 2023
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHCCTI 2023 : International Conference on Human-Centered Computing Technologies in Industry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Human-Centered Computing Technologies in Industry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Human-centered computing systems in industry
Human-centered design methods in industry
Human-centric computing and information sciences

Human-computer interaction and user-centered design
Ubiquitous computing and mobile systems
