

CALL FOR PAPERS

ICOES 2023
Mar 11-12, 2023
Miami, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOES 2023 : International Conference on Ocean Energy Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ocean Energy Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Ocean energy
- Ocean renewable energy
- The ecology of ocean energy
- Ocean energy technologies for renewable energy generation
- Ocean thermal energy conversion
- Resource and characteristics of ocean energy
- Technology development and implementation
- Ocean energy technologies and development trends
- Tidal stream conversion systems
- Wave energy conversion systems
- Tidal energy and power
- Tidal power plants
- Tidal power generation systems and technologies
- Modern technology
- Ocean power technologies
- Wave energy and power
- Wave farms
- Wave power conversion
