

# CALL FOR PAPERS

**ICEAED 2023**  
**Mar 29-30, 2023**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEAED 2023 : International Conference on Eclectic Architecture, Engineering and Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Eclectic Architecture, Engineering and Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Eclectic architecture  
Eclecticism in architecture  
Sustainable architectural applications  
Eclectic architecture buildings  
Neo-eclecticism and its features  
Eclectic architecture in building envelope maintenance

Development and history of eclectic architecture  
The philosophy and mathematics of eclectic architecture  
Sustainability in eclectic architecture  
Aims and characteristics of eclectic architecture  
Eclectic architecture and pioneering architects  
Design construction requirements and options
