

# CALL FOR PAPERS

**ICWSS 2023**  
**Mar 29-30, 2023**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWSS 2023 : International Conference on Weapon and Sensor Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Weapon and Sensor Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Weapon systems  
Weapon systems technology  
Weapon and sensor systems  
Autonomous weapon systems  
Weapon systems, optics and sensors  
Combat systems design  
Communications equipment  
Electronic warfare systems  
Mortar systems  
Ammunitions  
Optronics  
Rocket systems

Sensors  
Sonars  
Warship prime contracting  
Navy missiles, torpedoes, and  
weapon systems  
Weapon systems, optics, sensors,  
camouflage  
Small arms weapon systems  
performance - combat experience  
and trends  
Progress in ballistic performance  
of small arms ammunition  
New calibres and their  
standardization for small arms  
Future electronic equipment of  
small arms  
Optoelectronics technology and  
devices  
Sensors integration into the  
systems  
Adaptive and optical camouflage
