

# CALL FOR PAPERS

**ICABMPHES 2023**  
**Mar 22-23, 2023**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABMPHES 2023 : International Conference on Advanced Building Materials for Passive House and Energy Storage is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Building Materials for Passive House and Energy Storage. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Thermal energy storage materials in buildings

Phase change materials (PCM) for energy saving

High-performance insulation materials in buildings

High-performance concrete in buildings

Advanced wood-based materials for passive house

Composites based on renewable and sustainable materials

Energy simulation and modeling
