

CALL FOR PAPERS

ICACMC 2023
Mar 22-23, 2023
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACMC 2023 : International Conference on Advanced Cementitious Materials and Composites is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Cementitious Materials and Composites. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fiber-reinforced concrete
Geopolymer concrete
(Ultra) high-performance concrete
Eco-friendly concrete with mineral admixtures
Self-consolidating concrete
Mechanical properties

Durability
Shrinkage
Creep
Strain-rate effects
Rheology
Fracture mechanics
