

CALL FOR PAPERS

ICAPCE 2023
Mar 22-23, 2023
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPCE 2023 : International Conference on Advances in Photonic Communications Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Photonic Communications Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Photonic communications
Photonic network communications
Photonics and optical communication
Photonic integrated circuits
Optical and optoelectronic technologies

Optical communications and networking
Communication, signal processing, and computing
Device and system integration
Signal processing in photonics communications
Photonics applications for measurements, communications and computers
