

CALL FOR PAPERS

ICBDVPR 2023
Mar 22-23, 2023
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBDVPR 2023 : International Conference on Big Data in Veterinary Practice and Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Big Data in Veterinary Practice and Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Big data in veterinary practice and research
Big data for animal health
Big data in veterinary medicine
Big data research for veterinary medicine
Applying the human medical success of big data to our animal companions
Veterinary oncology: biology, big data and precision medicine
Big data and analytics for infectious disease research

Big data and global health
Big data effect on fast moving diseases
Big data's effects on past diseases
Big data and the effects on cancer treatment
Impacts of big data on animals thus far
Advanced big data algorithms
The ethics of biomedical big data
