

CALL FOR PAPERS

ICCFCE 2023
Mar 22-23, 2023
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCFCE 2023 : International Conference on Carbon Footprint and Carbon Emissions is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Carbon Footprint and Carbon Emissions. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Carbon footprint
Carbon footprints and sustainable solutions
Sources of carbon emissions
Solutions and sustainable actions
Methods and strategies to reduce carbon footprint
Protocols, policies and laws for carbon footprinting
Measurement and reduction of carbon footprint of engineering applications

Carbon footprint of agricultural products
Carbon footprint of transportation
Carbon footprint of textile and fashion
Carbon footprint of energy generation
Carbon footprint calculation
Carbon footprints of wood and other materials
Low carbon technologies
