

CALL FOR PAPERS

ICEFB 2023
Mar 22-23, 2023
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEFB 2023 : International Conference on Ecological Footprint and Biodiversity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecological Footprint and Biodiversity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Application and evaluation of ecological footprint
- Ecological footprint of rural solid waste disposal
- Ecological footprints and sustainable solutions
- Sources of ecological footprints
- Solutions and sustainable actions
- Methods and strategies to reduce ecological footprint
- Protocols, policies and laws for ecological footprinting
- Measurement and reduction of ecological footprint of engineering applications
- Ecological footprint of agricultural products
- Ecological footprint of transportation
- Ecological footprint of textile and fashion
- Ecological footprint of energy generation
- Ecological footprint calculation
- Ecological footprints of wood and other materials
- Ecosystem valuation
- Energy and natural resources
- Environmental impact assessment
- Environmental performance
- Greenhouse gas emissions
- Happy planet index
- Life cycle assessment
- Preservation and sustainable utilization of our natural heritage
- Renewable energy
- Residential waste and recycling
- Sustainable development and ecological footprint
- Technical innovations for regional economic development
