

# CALL FOR PAPERS

**ICEHHE 2023**  
**Mar 22-23, 2023**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEHHE 2023 : International Conference on Environmental Hazards and Health Effects is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Hazards and Health Effects. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental hazards and human health  
Environmental health risk assessment  
Natural hazards and disaster management  
Environmental health and biological hazards  
Environmental health and chemical hazards  
Environmental health and physical hazards  
Environmental health and mechanical hazards

Environmental health and psychological hazards  
Safety engineering  
Biomedical engineering  
Environmental health policies  
Environmental health and applications  
Environmental health and global concerns  
Environmental health ethics and laws
