

CALL FOR PAPERS

ICALAEA 2023
Mar 29-30, 2023
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICALAEA 2023 : International Conference on Aluminum-Lithium Alloys and Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aluminum-Lithium Alloys and Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aluminum-Lithium Alloys
Modern Aluminum-Lithium Alloys
Aluminum-Lithium Alloys for
Engineering Applications
Aluminum-Lithium Alloys for
Advanced Applications
Aluminum-Lithium Alloys for
Aerospace Structures
Phase Diagrams and Phase Reactions
in Aluminum-Lithium Alloys
Microstructure and Precipitate
Characteristics of
Aluminum-Lithium Alloys

Texture and Its Effects on
Properties in Aluminum-Lithium
Alloys
Melting and Casting of
Aluminum-Lithium Alloys
Mechanical Working of
Aluminum-Lithium Alloys
Superplasticity in and Superplastic
Forming of Aluminum-Lithium
Alloys
Welding Aspects of
Aluminum-Lithium Alloys
Formability Characterization of
Aluminum Lithium Alloys
Quantitative Phase Analysis of
Aluminium-Lithium Alloys
