

CALL FOR PAPERS

ICCCBS 2023
Mar 29-30, 2023
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCBS 2023 : International Conference on Computational Cognitive and Behavioral Science is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Cognitive and Behavioral Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational cognitive science
Computational cognitive and behavioral science
Theory and practice of computation
Intelligent systems
Interactive computer systems
Computer game development
Embodied conversational agents
Computational intelligence
Information retrieval and text processing
Mobile application development
Signal processing
Physiological measurement
Robotic systems

Haptic enabled systems
Image processing
The acquisition of language and ontology
Affect and emotion
Cognition and consciousness
Cognitive or evolutionary theory
Autonomous robotics
Biomedical science
Cognitive linguistics
Cognitive neuroscience
Computational intelligence
Developmental and evolutionary robotics
