

CALL FOR PAPERS

ICCM 2023
Mar 29-30, 2023
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCM 2023 : International Conference on Construction Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanomaterials
Biomaterials
Electronic, optical and magnetic materials
Computational materials science and materials theory
Ceramics and glasses
Composite materials
Polymers
Metal alloys
Iron and Steel
Paper and wood

Textiles
Chemical
Electronic, Optical, and Magnetic Materials
Construction materials
Green manufacturing and sustainability
Recycled materials
New construction materials
Emerging technologies in materials science
Materials environment interactions
