

# CALL FOR PAPERS

**ICEBSP 2023**  
**Mar 29-30, 2023**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEBSP 2023 : International Conference on Evolutionary Biology and Speciation Process is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Evolutionary Biology and Speciation Process. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Evolutionary biology  
Evolution  
Evolutionary processes  
Speciation  
Speciation process  
Gene transposition  
General principles  
Geographic speciation  
Peripatric speciation  
Parapatric speciation  
Allopatric speciation

Sympatric speciation  
Ecological and parallel speciation  
Speciation via polyploidization  
Hybrid speciation  
Artificial speciation  
Isolated biological populations  
Animal husbandry, agriculture and laboratory experiments  
Hawthorn fly  
Three-spined sticklebacks  
Rates of speciation  
Punctuated evolution
