

CALL FOR PAPERS

ICCAMA 2023
Mar 25-26, 2023
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCAMA 2023 : International Conference on Computation, Analytic Methods and Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computation, Analytic Methods and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mathematical sciences
Mathematical methods
Computational methods
Statistics
Numerical methods
Analytic methods
Optimization methods
Scientific observations
Computational science
Algebra and number theory
Analysis
Applied mathematics
Combinatorics

Computational mathematics
Geometric analysis
Mathematical biology
Probability
Inverse probability
Topology
Continuous maths
Groups and group actions
Mathematics and computing
Computational model
Design and analysis of algorithms
The interplay of modeling and
computational mathematics
