

CALL FOR PAPERS

ICEMBB 2023
Apr 29-30, 2023
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMBB 2023 : International Conference on Energy Management, Biodiesel and Bioalcohols is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Management, Biodiesel and Bioalcohols. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Objectives of producing and using biodiesel
Applications and environment impact of biodiesel
Innovative biotechnology
Biodiesel production from municipal waste
Cost effective techniques and scale up strategies for biodiesel production
Biodiesel as automobile fuel
Enzymatic production of biodiesel
Applications and environment impact of biodiesel
Market opportunities

Crops for biodiesel production
Scale up strategies and challenges
Investment and financing
Bioalcohols
Generations of bioalcohols and scope of advancement
Production of bioalcohols from plant matter
Production of bioalcohols from algae
Bioalcohols as automobile fuel
