

CALL FOR PAPERS

ICNST 2023
Apr 15-16, 2023
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNST 2023 : International Conference on National Security Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of National Security Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:
